

# Why Choose Us?

## **Bespoke & Ethical Dental Care**

We offer a huge range of services, as every patient is different. Every patient is provided with a customised plan, customised treatment, and a customised service. We take pride in performing dentistry in an ethical manner, and believe this is the only way that dentistry should be performed.

## **Quality Care**

The highest level of care means the use of high quality products and technology in each and every dental appointment. Most dental patients do not know that there is a difference in the quality of dental products, dental technology, and even the services provided by dental labs. The difference in cost and quality can be vast and at 2 Green Dental each product and material is handpicked to match the patient's needs as well as being of the highest quality.

Quality Care also ensures that you get time to spend with an experienced dentist that will answer all of your questions, and address any concerns you may have. All our staff are here for your benefit and are dedicated to ensure that we remain highly trained, friendly, and always looking out for the patients best interests.

As we do not cut corners, our prices are generally a little higher than other practices. However, you receive the best treatment we can provide.

## **Training**

All of our dentists have qualified from reputable universities within the UK. We all far exceed the minimum standards in continually training and keeping up to date with new techniques and materials.

## **Safety**

The equipment we use is modern, clean and hygienic. We have a state of the art digital x-ray machines as well as a dedicated room with the best and most modern sterilisers and washers to clean disinfect and sterilise all the instruments we use. Your safety is our number one concern.

We regularly train all staff to use all the emergency medications and train them in CPR and basic life support should we ever need it.

# Why Choose Us?

## Comfort & Ease

Our surgeries are airy, comfortable and friendly. We have scented candles and diffusers to eliminate that dental smell, as well as, being fully air conditioned and with natural daylight lighting. Our surgery is fully accessible to disabled and elderly patients, including step free access and clean, large, disabled toilet facilities conforming to all regulations.

We have a reception area equipped to provide you with the comforts of home. We offer refreshments, comfortable seating, a plasma television, and do our absolute best to ensure that you will not have to wait. We offer easy access to all of our paperwork online, and even remind you of appointments with emails, texts and courtesy phone calls. Our dental treatment rooms play gentle music to make you more at ease.

We offer several interest free financing options to cover the cost of your dental treatment, and we accept most dental insurance.

## Informed Patient

2 Green Dental believes that you need to see, and understand what is going on with your oral health to make a well informed decision. You will receive one on one time with your dentist who will explore a wide range of topics, diagnoses, and treatments if needed. We will provide simple solutions, pictures, and videos that are informative and in a way that you understand. We try not to use jargon and dental terminology but explain your health and treatments in words you can understand. Lastly, we offer brochures and information leaflets on a wide range of dental procedures like Veneers, Invisalign, Teeth Whitening and many other cosmetic and general dental treatments. These brochures are supplied at no cost to the patient which can help you learn more about your oral health.

## Guarantee

All dental treatment in our practice is guaranteed for 1 year. If you are not satisfied with the treatment, we will endeavour to resolve the issue even if it means re-doing it!
